Experience

Product Manager, Foxtale, Mumbai — Dec 2025 – Present

- Own the **retention, engagement and AI personalization roadmap** for Foxtale's consumer app, driving lifecycle journeys, feature adoption and repeat purchase alongside Engineering, Design, Marketing and CX teams.
- Built an **AI-powered Sunscreen Recommendation** experience reaching **208K+ users**, increasing purchase conversion from **19.6% to 26.3% (+34%)**; scan users became **7× more likely to purchase** than direct PDP visitors.
- Designed and launched **Skin Horoscope 2.0**, transforming a one-time AI scan into a **30-day personalized journey**, improving **Day-1 retention from 31% to 43%** and **doubling Day-30 retention (3% → 5%)**.
- Launched a post-purchase **App Install Nudge**, generating **12,292 app installs**, achieving **38% click-to-install conversion**, and driving **1,157 repeat purchasers** through a new acquisition channel.
- Redesigned **split-order tracking**, reducing customer support tickets by **39%** despite an **11% increase** in split-order volume.
- Built a gamified **Brightening Moisturizer Early Access** experience, increasing engaged users' pre-order intent by **1.6×** through hotspot-driven product discovery and experimentation.
- Led **15+ A/B experiments** across AI recommendations, PDPs, landing pages and lifecycle journeys using **Mixpanel, VWO and behavioral analytics** to optimize activation, engagement and conversion.

Associate Product Manager, TravClan, Delhi — Apr 2023 – Nov 2025

- Owned the product roadmap for a B2B travel platform serving **500+ travel agencies**, prioritizing initiatives through **150+ customer interviews**, funnel analysis and competitive research.
- Built an **AI-powered itinerary automation engine**, reducing manual effort by **80%**, improving turnaround time from **24+ hours to under 6 hours**, and saving approximately **3 FTEs**.
- Shipped **3+ real-time API integrations** across hotels, transfers and activities, contributing to **25% growth in cross-sell revenue**.
- Integrated the **NIMBBL Payment Gateway**, reducing payment failures by **18%** while improving payment reconciliation and agent trust.
- Established product analytics using **Amplitude**, defining event tracking, activation funnels and dashboards to enable experimentation and data-driven prioritization.
- Partnered with Engineering, Design, Sales and Operations to write PRDs, define rollout strategies and successfully launch multiple platform capabilities.

Business & Account Manager, TravClan, Delhi — May 2021 – Mar 2023

- Operations Leadership: Led content analysts to ensure accurate rates across 1000+ products, improving supplier SLA compliance by 15%.
- Analyzed client feedback and data insights to enhance product offerings, optimize user experience, and drive customer satisfaction.
- Collaborated with sales, marketing, and engineering to streamline agent training, boost client retention, and drive business acquisition.

Projects

NIMBBL Payment Gateway Integration

- Integrated NIMBBL PG APIs to enable seamless B2B payment collection and reconciliation.
- Worked with engineers on API flow design, testing, and debugging for secure and reliable transactions.
- Strengthened expertise in fintech payment systems and third-party API integrations.

AI Workflow Automation

- Automated post-booking workflow using AI and Make.com, cutting turnaround time from 72+ hours to 24–48 hours.
- Improved operational speed and partner experience through real-time confirmation and voucher generation.

Recruit-AI – Agentic AI Hiring Platform

- Built an AI-powered hiring workflow using **n8n, Meta Llama 3 (70B), Groq and PDF parsing** to automate resume screening, candidate evaluation and interview scheduling, reducing manual screening effort by approximately **40%**.

Achievements

- Fast-tracked promotions: Account Manager → Business Manager → Associate PM within 2 years.
- Recognized as AI Wizard of the Month for driving AI adoption in ops.

- 5× Employee of the Month, 5× Extra Mile Achiever, consistently rated top performer.
